

A highly organized and goal-driven individual. I'm currently pursuing my bachelor's in Computer engineering. Looking forward to an internship opportunity for working in a dynamic, challenging environment, where I can utilize my skills for developing my career and for the growth of the organization.

Experience

External Project for Deltin Group, Goa

July 2022 - Present

- Built employee management system (ERP software) to be used by staff members of Deltin
- The software tracks the employees, accommodation, and Inventory resources of the company.
- Designed the wireframes and front end of the project.
